

GUATEMALA

The first years of life are critical to a child's future success. Episcopal Relief & Development is committed to partnering with parents and caregivers to nurture children up to age six so they are learning, growing and thriving in their communities.

Over the years, Episcopal Relief & Development has worked with the Episcopal Diocese of Guatemala to provide emergency assistance after disasters. As the partnership evolved, we supported the establishment of a Diocesan Development Office to implement and monitor long-term projects.

Today, our activities in Guatemala focus on alleviating chronic poverty through the formation of Savings with Education groups where members can build their individual savings and access microloans to support the expansion of small businesses. By helping parents and caregivers earn an income, we improve the economic stability of families so children grow and thrive.

For more information, see [Guatemala](#).

Your partnership empowers more families, in more places, to support more **children**.
