

MYANMAR

The first years of life are critical to a child's future success. Episcopal Relief & Development is committed to partnering with parents and caregivers to nurture children up to age six so they are learning, growing and thriving in their communities.

Episcopal Relief & Development partners with the Church of the Province of Myanmar on several agricultural, disaster response and economic empowerment projects. In Myanmar, church partners are training farmers on techniques to improve nutrition, raise productivity and access local markets.

These programs are making a difference in the lives of children and their families because training and diversifying crops help people produce more food and increase their earning potential. More food and income creates economic stability and enables children to attend school.

For more information, see [Myanmar Farmers](#).

Your partnership empowers more families, in more places, to support more **children**.
