Working with Children

Here are some simple tips for working with kids that you can share with your volunteers.

1. **Always interact with children from a place of love.** All children, regardless of age or appearance, need to feel wanted and accepted. Make sure to welcome kids warmly each day, and always be ready with smiles, giggles, encouraging words.

2. **Work hard to learn names.** When you call a child by his or her name, you are validating their identity as beloved. Make sure easy-to-read nametags are always on you and each child so that this is easy to practice.

3. **Use active learning.** The more children can actively be involved in their learning, the more connected they will feel.

4. **Be present!** Do you best to leave your phone off of in your bag during your teaching times. If time management is a concern considering wearing a watch. Also, do not discuss your personal life in front of children, or group up with other leaders or volunteers. Kids deserve your full attention while in your presence.

5. **Be prepared for down time.** Find activities to do when you have a few free minutes so all time is being used in a fun and productive way. Keep trivia or “Would you Rather” or Red Light/Green Light type of games in mind.

6. **Dress the part.** Make sure that you are in comfortable clothes that are made for active movement and you can get dirty. If you are a storyteller consider dressing in character. All other leaders and helpers should consider dressing in “gardening duds” - Overalls, garden aprons, straw hats etc.

7. **Be rooted in your Baptism.** Make sure to interact with all adults and children in a way that follows the apostles teachings, humbly repents of mistakes, proclaim by word and example the Good News of God in Christ, strives for justice and peace among all people, respects the dignity of everyone, and seeks and serves Christ in all persons, all with God’s help.

8. **Pray.** Before and after each session, leaders and volunteers should gather for prayer. (You may want to use Prayer 46, pg 829 for your opening prayer and a prayer of Thanksgiving after your closing.) You may also want to divide up the names of your children and prayer for them individually.

9. **Be aware of age level needs.** With younger children, activities need to be hands-on, concrete, short, and simple. Older children love to talk and are processing and questioning information.

10. **Call out the good!** Children generally rise to the level expected of them, so call out to their better natures. Verbalize that you believe that they are capable of learning, listening, and engaging.

14. **Be prepared.** Read through your lessons, any training information, ask questions if you are unclear, and prepare materials for which you are responsible ahead of time.

15. **Work together.** Do not speak negatively around children regarding other leaders, the programs, or other children or church members. At all times try and keep a positive attitude.

16. **Remember to take bathroom breaks.** The younger the child, the more important this is!
Communication Strategies

Clearly communicating the fun that children and volunteers will have at The Abundant Life Garden Project® offered by Episcopal Relief & Development should be an essential part of your planning strategy. Here are a few tips to help you get started.

- **Early and Often:** Begin communicating registration for children and volunteers early - at least 8 weeks out. Repeat your communication efforts weekly until the last four weeks, then go to twice weekly. This can be via Social Media, Church Newsletter, Email Blast etc.

- **Tell the kids:** Make sure to message the kids as well as adults. Talk about the class with kids during Sunday School, Children’s Chapel, Youth Groups and one on one.

- **Avoid too much paper passing:** When possible use digital reminder options. BUT make sure to include the announcement in your church bulletin or other weekly information update.

- **Group texts:** Send parents and volunteers starting date reminders.

- **Word of mouth is key:** Ask everyone who is participating to tell five people about ALG!

- **Go Local:** Local papers, online groups, and boosted Facebook posts are helpful when inviting the larger community.

- **Tag, Your It!** Invite members to promote activities on their own social media accounts, making sure to tag the Church.

- **#AbundantLifeGarden:** Establish social media tags that your members can use and share.

- **Online Registration:** Google Forms or other programs are available to create easy to use online registrations. If possible, set up a computer or iPad station in the church lobby or outside Sunday School classrooms to help register kids on Sundays.

- **Your Website!** Remember to use church website to clearly and cohesively post registration, information, forms, contact numbers.
